

H275TR

Bollard

SEMI-AUTOMATIC TELESCOPIC Ø5.51x19.69"

Metal
Key

Regulations and certifications:

ISO 9001 ISO 50001 ISO 14001 ISO 45001

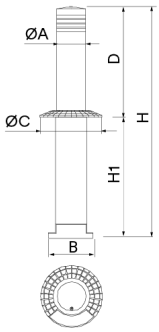

This is a retractable bollard with a recessed base made of stainless steel with reflective white stripes. It has a non-slip cast iron cover that rises automatically and lowers manually using the key.
This is a Street Furniture element ideal for restricting vehicle access and delimiting spaces. Bollard and complete chassis made of satin-finished AISI-304 stainless steel. Retractable bollard (with recessed base) with automatic raising and manual lowering. Installation: Drainage is essential to ensure water evacuation (see separate instructions). Unlocking by means of a 0.39" DIN3223 triangular key.
