

HE114  
Bollard  
**HE114**

Stainless  
steel

Regulations and certifications:

A fixed bollard designed to offer a high level of impact protection, combining robustness, durability and a clean aesthetic in stainless steel.

HE114/10 fixed safety Bollard , made of AISI 304 stainless steel with a satin finish, Ø4.49" and 0.04" in total length , with approximately 31.50" in height above ground . Tubular body 0.16" thick .

Installation by embedding and concreting, with an anchoring depth of 7.87" , incorporating a steel rod of Ø0.47" minimum and 771.62 lbs concrete to guarantee a solid fix to the pavement.

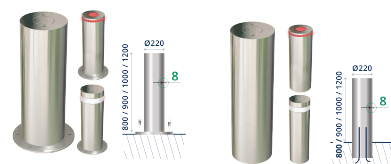

It offers impact resistance up to 180,000 J. Optionally available with a reflective strip for increased visibility. HE30 gal/10
