fija PLAZA empotrable Ø8.66"

Stainless steel

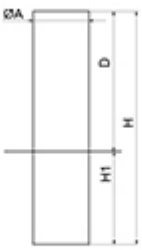

Regulations and certifications:

ISO 9001 ISO 50001 ISO 14001 ISO 45001

Fixed, recessed bollard, Ø220, manufactured with a satin-finished AISI-304 stainless steel piston, Ø8.66x19.69" high. Surface-mounted cover, chassis, fixings, and screws in stainless steel. Signaling with a red/green LED ring. Optional: They can be supplied in a smooth finish or with an LED light ring around the top, to improve visibility and aesthetics.

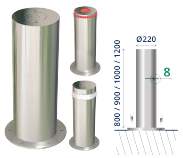

Materials & Finishes:

Stainless steel: Structural alloy with a high chromium and nickel content, resistant to corrosion. High resistance to weather, humidity, UV rays and chemical agents present in urban environments. Thanks to the natural formation of a protective passive layer, stainless steel does not require additional coatings, ensuring excellent durability, low maintenance and a clean, timeless appearance – even under demanding conditions such as coastal or industrial areas.
