Regulations and certifications:

ISO 9001 ISO 50001 ISO 14001 ISO 45001

STIL side-less bench canopy, overall dimensions (length x width x height) 157.48x79.53x106.14", made of polished AISI-304 stainless steel, with a side-less bench . Roof panel (injected galvanized and pre-lacquered polyurethane) with three 3.15x3.15" pillars, brackets for fixing, and horizontal profiles for enclosure with laminated safety glass. Delivered as a kit with accessories and assembly instructions. Recommended anchoring: embedded in the ground.

Materials & Finishes:

Steel with a hot-dip galvanizing treatment to protect it from corrosion. Our galvanizing process complies with the UNE EN ISO 1461:2009 standard and involves immersion in a crucible of molten zinc at 450°C, during which a reaction occurs between zinc and steel resulting in different layers of alloy between the two metals, culminating in an external coating of pure zinc. To ensure proper application of the process, it is essential to subject the pieces to a preliminary process of degreasing, pickling, and fluxing.
