Regulations and certifications:

CITIZEN designer Litter Bin , overall dimensions (width x diameter x height) 21.46x17.72x36.22", 15 gal, manufactured with a ductile iron structure and a Marson-finished steel tub (treated with the Ferrus triple-layer protective process for iron, guaranteeing optimal corrosion resistance). Finished with epoxy primer and polyester powder coating. Zinc-plated steel ring for securing the bag. German Design Award winner. Prepared for anchoring with expansion bolts depending on the surface and project.

Optional not included: Customizable marking with 2.91x1.38" aluminum plate.

Materials & Finishes:

Ductile Iron treated with FERRUS: iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, involving an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint. Forged black colour

Hardwood treated with LIGNUS: Wood from responsible forestry. Density greater than 930kg/m³, at 12% humidity, treated with a triple-layer LIGNUS coating, fungicide, insecticide, and water-repellent that provides protection against moisture penetration. Final finish with a layer of natural pigment in a satin finish, which provides additional protection against UV rays, the main cause of deterioration in this type of material.
