ReBnew material

20 years warranty

Low maintenance

Regulations and certifications:

ISO 9001 ISO 50001 ISO 14001 ISO 45001

KOM designer Litter Bin , brown recycled polymer, overall dimensions (Ø x H) 16.54x49.21", made of ReBnew plastic (BENITO's recycled polymer, produced entirely from yellow bin packaging and requiring no maintenance), weather resistant, oil, acid and seawater resistant. Non-degrading, non-splintering. Anti-graffiti. Moisture resistant, does not absorb water, quick drying. ECOLOGICAL, comes from recycled product and is 100% recyclable. Long lifespan. Pollutant-free. Prepared for anchoring by embedding it in the ground according to the surface and project.
Awarded "DER BLAUE ENGEL", Product with low environmental impact throughout its life cycle.

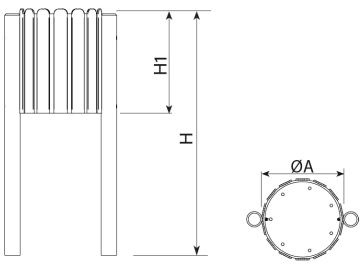

Materials & Finishes:

ReBnew: 100% recycled polymer, sturdy and durable, derived from urban, industrial, and domestic waste... It is weather-resistant, resistant to oils, acids, and seawater. It does not splinter or crack, nor does it rot or dry out.

Irregular surface finish makes the board extremely durable as it effectively hides scratches caused by vandalism. Nevertheless, surface scratches can be repaired to restore it to a like-new condition.

Scratch Repair on ReBnew

AWARDED WITH "DER BLAUE ENGEL": Product with low environmental impact throughout its lifecycle. It is awarded to products that meet criteria for reducing environmental impact in manufacturing, recycling, packaging, use, emissions, collection, and disposal. In addition to environmental criteria, it includes quality, safety, energy consumption, and other considerations. It is one of the most prestigious labels globally.
