Litter Bin

Kube

Trash bag | Black Color | Precast Concrete | Capacity 140L | Hinged cover | Low maintenance

Regulations and certifications:

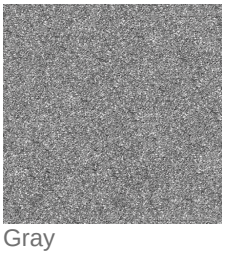

ISO 9001 | ISO 50001 | ISO 14001 | ISO 45001

KUBE designer Litter Bin , total dimensions (width x depth x height) 20.08x20.08x43.31", 36 gal, made from rough, granite-grey precast concrete. Bag securing ring and steel top lid (treated with the Ferrus process, the triple-layer protection for iron, which guarantees optimal corrosion resistance). With epoxy primer and black polyester powder paint. With a lid. Supported on a prepared surface, by its own weight and anchored with one Ø10 bolt.

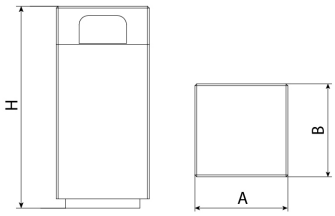

Materials & Finishes:

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.

Concrete: Reinforced concrete with a pickled and water-repellent finish. Manufactured with cement, sand, and gravel embedded within a metal structure. Shot blasting results in a high-quality, durable texture.
