Regulations and certifications:

OLEA round designer Planter , total dimensions (Ø x H) 29.53x29.53" , made of Corten steel sheet (maintenance-free). It rests on a prepared surface under its own weight.

Materials & Finishes:

Corten steel: The material itself creates its own protection through oxidation. The oxidation process goes through different stages of color until it reaches "stop," which is when it acquires its final color and stops losing rust and staining. The oxidation process and its tone vary depending on the location where the product is installed and the sun/rain/wind cycles to which it is exposed.
