

UM3D84

Side table

PIRO

M10 bolts
fixing

RAL7006
Colour

Regulations and certifications:

Side table compatible with the PIRO collection. Steel structure (treated with the Ferrus process, the triple-layer protector for iron, which guarantees optimum resistance to corrosion) with RAL 7006 finish and hardwood treated with protective oil.

Materials & Finishes:

Steel with FERRUS treatment: an iron protection process that ensures optimal corrosion resistance. The Ferrus treatment consists of three layers applied after cleaning all dirt and impurities using shot blasting, and it involves an electrolytic bath followed by an epoxy primer and a final coating of polyester powder paint.

Hardwood treated with LIGNUS: Wood from responsible forestry. Density greater than 930kg/m³, at 12% humidity, treated with a triple-layer LIGNUS coating, fungicide, insecticide, and water-repellent that provides protection against moisture penetration. Final finish with a layer of natural pigment in a satin finish, which provides additional protection against UV rays, the main cause of deterioration in this type of material.
