Urban boundary

Nosa

Precast Concrete

Low maintenance

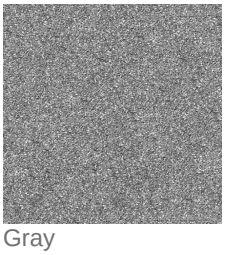

Regulations and certifications:

ISO 9001 ISO 50001 ISO 14001 ISO 45001

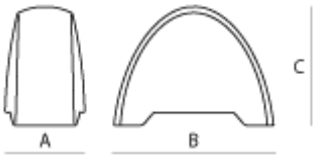

Urban boundary made of prefabricated pickled concrete in grey color, with a fine grain granite-type finish.
Designed for gravity placement, without the need for anchors, facilitating a quick and efficient installation.
It incorporates a handling system integrated into its base, with a specific fitting for mechanical bull clamps, allowing for easy and safe transport and positioning.
An element especially suitable for the temporary delimitation of access in squares, streets and pedestrian spaces, offering a high level of security with minimal visual interference in the urban environment.

Materials & Finishes:

Concrete: Reinforced concrete with a pickled and water-repellent finish. Manufactured with cement, sand, and gravel embedded within a metal structure. Shot blasting results in a high-quality, durable texture.
