VLUAT

Optimal signaling system for determining the location and entry of pedestrian crossings in Llano
Material: Matte stainless steel
REFLECTOR COLORS: White (VLUAT) or yellow (VLUBT)
- 5 horizontal light reflection emission points indicating the location of the conflict point, facing the direction of vehicle traffic.
- Direct incidence of the vehicle's lights on the reflectors at the maximum distance from the light's reach to the pedestrian crossing, anticipating their visibility.
- Warns the vehicle driver of the pedestrian crossing situation well in advance.
- Increases driver attention to the conflict point.
