# Road reflector
# LumiX
VLUR1R

Optimally effective signaling system, used to separate lanes of traffic in different directions on sections separated by dividing lines, especially on sections where encroachment into the opposite lane poses a serious risk of accident.
- Increases the driver's level of attention.
- It acts as a circulation guide element.
- Clearly delimit the circulation space.
- It does not prevent or alter the maneuver in emergency situations.
- Light reflection in both directions of traffic.
- Anticipates visibility into the risk situation.
